# CLIP AND PASTE FACES ✂

COLOR, CUT, AND PASTE THESE FACES INTO THE FAMILY TREE AND HOUSE PAGES OR DRAW YOUR OWN.

## NOTES FOR PARENTS:

**YOU WILL NEED:** a printer; scissors; letter sized paper or cardstock; crayons, markers, or colored pencils; glue or other adhesive; a 3-hole punch; copies of family photos (optional for cover)

Thank you for downloading my printable Family Tree pages. The pages are designed to be part of a custom Family Book created by your child. I suggest using a 1"-2" three-ring binder with custom cover slot, such as [these ones](#) on Amazon.com.

The "Family Tree" page was made to be the book cover. Family photos could be used in place of the cartoon faces, if desired. You may want to print the cover on cardstock rather than paper to make it easier to insert in cover slot.

I created this resource to give families a fun way to share their family history. If you enjoy these pages please consider subscribing to the [Memoir Genealogy Blog](#) and I will let you know when additional Family Book pages are added to the website.

Best,  
Michelle Carroll
